ABOUT US

Satycom was born of a passion for high quality, for raw materials, and for excellence in food and wine.

Our products are carefully chosen not only for industry professionals, but also for those who want the very best for themselves, and straight to their own tables.

Whether it's **made in Italy** or staples of foreign cuisine, each product is sourced directly from its place of origin.

Our selected short-supply-chain products are handmade by small, local producers who value quality and authenticity as much as we do, making our grocery model **sustainable**.

However, sourcing top-quality Italian food isn't always convenient or easy, which is why Satycom provides you with the best food products that Italy has to offer, with specialities ready to order from our online delicatessens and delivered right to your doorstep.
